Little Cottonwood Tanner

Cahoon and Maxfield

Murray City Power

SLC Commissioner

Walker Ditch

Sandy City

Salt Lake City Corp. Water Resources Dept.

Water Users Commissioner

The minutes of the Little Cottonwood Creek Distributions System Water Users Meeting held on August 24, 2004 were read and approved following a motion be Max Reese and seconded by Peggy Garcia

Tim O'Hara reported on water that had been acquired from several sources and used to keep the irrigation water flowing through the season. He reported that Little Cottonwood water lasted longer than expected, and helped with the water season.

Marv Widerberg reported on water flow for the season compared to past years. He also reported on people building dams in Little Cottonwood creek. He recommended the Little Cottonwood Creek be monitored this fall to check alteration of stream flow. Marv recommended that water masters need to have access to more information about the irrigation systems.

Tim O'Hara agreed with the problems brought up by Marv and reported that stream flow has been changed by non water users. He also asked Max Reese to check on easements to Tanner headgate.

Tim O'Hara brought up the agreement between Richards Irrigation Co and the Willow Creek Golf Course. The committee agreed that any like agreements that might have a effect on water should be brought to the Distribution Committee.

Max Reese asked about the Bell Canyon project, and Rod Sorensen reported nothing had happened, but he will let the Committee know about any changes.

Tim O'Hara reported on upgrades to gates in the system and was pleased with the results of the work.

A new chairman will be selected at the Annual Meeting held in January.

The committee recommended the meeting be held January 18, 2004. Sam will call Lee Sim to firm up a date for the Annual Meeting.

The meeting was adjourned at 4:55 p.m. on a motion by Max Reese and seconded by Tim O'Hara
